Subject: Re: Request for delegation at an upcoming meeting?

Good Day, sorry, I couldn't reply yesterday, I was travelling and in an all-day meeting. Attached are the results of the soil samples sent in. The short answer is your clay content is good and we would be confident in Con-aid doing an effective job. The Sample labeled Tylers Driveway, was just over 8% clay, that is a touch low, but we are still confident. Feel free to call with questions.

Warm Regards,

Clayton Rosaasen
